

NEW YEAR SPECIAL

DISCOVER THE WORLD OF BOATING WITH MARINE SOLUTIONS

Marine Solutions, India's first professionally managed company dedicated to the leisure boating industry, brings you new models from the best brands in boating. With over twelve brands in the harbor, Marine Solutions is the numero uno yacht retail

company in India. The boats are backed by excellent manufacture provided warranties and Marine Solutions extended service plans are available to ensure your boat is professionally maintained round the clock. A unique Boat Management Package offers you the option to rest your worries concerning managing your boat and crew. Marine Solutions makes sure you are confident in operations of your new boat, encouraging the whole family to be present during delivery so that they can receive some hands on experience in operating the boat. The boat deliveries take place in the water where you will be assisted by their certified captains. The Company is here to listen, answer your questions and help you find the boat of your dreams, by guiding you in understanding the brands, and what they represent, enabling you to make the right decision. Committed towards winning people's hearts and minds to the yachting lifestyle in a nascent market, Marine Solutions provides you with complete boating solutions. Services provided include help in choosing the right product, handling the import, commissioning the boat, warranty service and various options in maintenance backup and boat management. Marine Solutions has sales and service offices in Bombay, Goa, Kochi and Calcutta; and boat yard in Mora, 15 minutes by speed boat from Gateway, Bombay. We also offer our clients exclusive berthing service at the Britona Yacht Station in Panjim, Goa and at moorings off the Gateway of India in Bombay. Marine Solutions is the exclusive distributor in India for Ferretti Yachts, Riva, Pershing, Custom Line, Mochi Craft, Itama, Bertram, Sea Ray, Prestige, Jeanneau, Fountaine Pajot, Rigiflex and Zodiac.

THE 80-METRE "CHOPI CHOPI" IS CRN'S MADE-IN-ITALY JEWEL

She is the largest megayacht ever built by the Shipyard in its 50-year history! The M/Y Chopi Chopi is a megayacht, entirely built at the Ancona Shipyard, whose value exceeds 80 million Euros. It is the 129th pleasure vessel built by CRN, which in 2013 will celebrate its fiftieth anniversary. M/Y Chopi Chopi, CRN's latest megayacht, embodies all the main strengths of the brand and has been developed to meet all the Owner's specific needs. Guests are welcomed in six suites with a balcony and several terraces overlooking the sea. Chopi

Chopi offers the Owner an exclusive 'nest' thanks to a fully-dedicated deck where, among other things, a helicopter can easily land in the utmost privacy. At the stern of the lower deck of this true pearl of naval architecture is the 100 meter square "beach club", whose door can be converted into a large swimming platform at the water level. The relaxation area continues indoor, with a fitness area and a spa with a sauna, a Turkish bath and a massage area. This pleasure vessel can host 23 crew members + 10 staff members, while up to 12 guests can be accommodated in 5 (double and twin) cabins and 1 master stateroom. The yacht is powered by two Caterpillar 3516B-C engines that push it to a cruising speed of 15 knots and a maximum speed of 16 knots. The cruising range at a speed of 12 knots is 6,000 nautical miles. CRN is the Ferretti Group's Shipyard specialising in the construction and sale of fully-custom and semi-custom megayachts in steel, aluminium and fibreglass ranging between 40 and 90 metres in length.

THE ALL-NEW SEA RAY 21 JET - WHAT A JET BOAT ALWAYS WANTED TO BE

Crafted with the exceptional design, engineering and quality for which Sea Ray has become so well known, the all-new 21 Jet is a true "boat" and not just a "jet boat." The new Sea Ray's generous dimensions translate into a spacious cockpit with seating for up to 10 people. The bow area has full wraparound benches and padded bolsters, allowing for nearly 360-degree utilization (an optional filler cushion creates a full-width sun pad). Stainless-steel grab handles replace the plastic ones found on many competitive models. At the nose is an anchor locker; it and the gel-coated storage compartments under the seats are molded into the finished fiberglass floor and liner system. This quality construction feature provides added moisture protection, helps in cleanup and maintenance, and creates a stronger and more solid overall design. Clean and compact, the helm of the new 21 Jet is reminiscent of a modern, luxury sports car. Beyond the center transom walk-thru, an aft entertainment zone redefines the boating experience for owners of the 21 Jet. This multi-tiered, multi-purpose area includes a pair of aft-facing seats with padded backrests and an integral swim platform with three-step, stainless-steel ladder. It's the perfect place to conveniently gear up for water sports, or to hang out and enjoy an afternoon of sunning and swimming. A ski tow eye is standard; add a stereo remote and speaker package here for even more fun at the water's edge.

THE ALL NEW 370 VENTURE NAMED BOATING MAGAZINE'S BOAT OF THE YEAR

From its sleek, contemporary lines to its expansive living spaces, the All New 370 Venture may be Sea Ray's most innovative and accommodating express cruiser since they redefined the class in 1974 with their first Sundancer model. No other vessel this size and style can offer the cockpit and cabin space, or the unmatched performance benefits of this model. No other brand can provide the superior quality and confidence of Sea Ray. It's an express cruiser powered by twin Mercury Verado 300 hp outboards. This seemingly incongruous marriage results in a cruiser with some remarkable traits and abilities. Eliminating the traditional sterndrive/ inboard engine room creating the largest and most comfortable mid-cabin, full-beam master stateroom in class. Outboard motors can be tilted up completely out of the water and preventing to minimize the fouling and corrosion issues.

THE NEW FERRETTI 960 LARGEST PLANNING RECREATIONAL BOAT BUILT BY FERRETTI YACHTS

The largest planning recreational boat ever built by Ferretti Yachts is born. A slender, sporty 96-footer ensuring top performances in its category and characterized by an optimized outdoor and interior layout, starting from the master quarters, located for the first time on the main deck and an innovative aft area with a floodable garage to launch the tender. Building the largest CE-certified planning recreational boat below 24 metres in length while developing further the design concepts pursued with the brand's most recent models and maximizing them to obtain an unprecedented result in its category: is the core philosophy of the Ferretti 960 - Ferretti Yachts' new flagship, whose first hull is currently being built at the Group's Cattolica shipyard. The boat will be officially launched next spring.

JEANNEAU NC 14 - ELEGANCE, LUXURY AND COMFORT PERSONIFIED

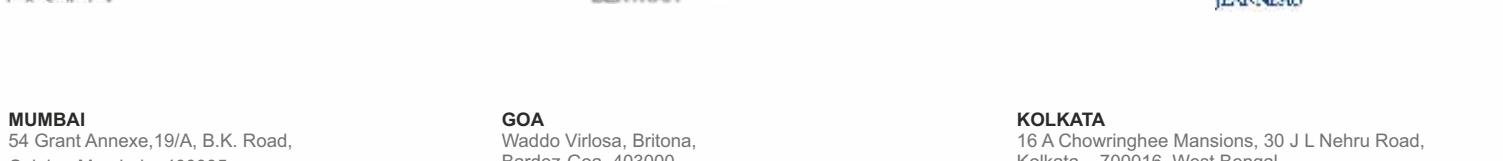

Jeanneau 2012 World Dealer meeting unveiled the new Jeanneau NC 14 motor boat. The success of the new NC line has made an impact in the world of Jeanneau. The original driving spirit behind the concept, "an apartment on the water, with a terrace and a sea view has been perfectly distilled into the NC 9 and NC 11, resulting in real enthusiasm for these "new" boats. On the heels of this success, Jeanneau is bringing the concept to the new NC 14, aboard which luxurious elegance and comfort are matched by innovation.

THE NEW SANYA 57' - FOUNTAINE PAJOT'S NEWEST OFFSHORE CRUISER CATAMARAN

The Sanya 57 will cater to sailors looking for an offshore proven live-aboard-world cruiser produced in one of the largest and most reputable catamaran manufacturing plants in the world. Fountaine Pajot has produced more than 2200 large cruising catamarans and the new catamaran benefits from the yards 34 year experience. She features a salon area which is as large as the Eleuthera 60' catamaran, a same-level cockpit and saloon and true single-handed sail controls. It is completely feasible for one experienced sailor to operate this 57' yacht alone. The ingenious, trademark twin "semi-fly" bridges keep the center of gravity and boat profile low, yet expand the social area beyond the expansive cockpit. A smart dinghy platform serves both as a sun-deck extension of the cockpit but also hides the tender from view and damaging uv rays.
