Perhaps upgrade your boat for the new season? Contact us for special offers on upgrades."

BERTRAM 800: TOUGH, FAST AND SUPREMELY SEAWORTHY

Leading the Bertram fleet into the future of sport fishing, the 800 delivers the extreme power and performance of a sport fishing vessel while exuding ultimate luxury and comfort. The 800 features a new advanced forward and hull window design that is constructed with multiple layers of tempered glass; state-of-the-art window technology exclusively designed and tested by Advanced Yacht Technology to resist the roughest fishing conditions. Flooding the interior with light and allowing supreme interaction with the sea environment, windows are reinforced directly into the fiberglass hull for optimal hull strength. AYT also has successfully modified the struts in order to dissipate cavitation, minimizing maintenance issues, gaining better fuel economy, and enhancing engine performance. Additionally, the 800 features the exclusive ARG (Anti-rolling Gyro) technology, which suppresses rolling motion and reduces rolling angle by up to 50%.

Maximizing all space on board, the 800 has been designed with a generous, extended cockpit that provides ample space for a plethora of activities or entertainment on board. A supplementary day head will also be integrated into the main salon level for easier entry for guests from the cockpit. Endowed with beautiful white oak wood as a standard or the upgraded, exotic African mahogany for the interiors, the decor offers exceptional luxury and comfort. Featuring a four-cabin layout, the extravagant full beam master offers sweeping views of the open ocean with large porthole windows in one of many customized configurations. Crew cabin layouts also may be modified to owner specifications. Breaking into the future of sport fishing, the Bertram 800 will undoubtedly set a new precedent for the sport fishing industry.

AWARD WINNER PRESTIGE 500 & THE ASIAN PREMIERE OF THE SPORT TOP VERSION: PRESTIGE 500S

At the official ceremony of the 'European Powerboat Of The Year Awards' held in January in Düsseldorf, the superb Prestige 500 was awarded the title of "Powerboat of the Year" in the category of yachts over 45 feet in length. The annual awards celebrate the very best in boat design and construction. Winners are selected by a jury composed of the biggest European magazines in the marine industry. Winning this coveted award for the PRESTIGE 500 further confirms the success of the new PRESTIGE brand. This new model, first launched in Düsseldorf, Germany, won many trophies like:

- "Best Interior Design" in September at the World Yachts Trophies Awards in Cannes.
- "Best Motor Yacht" in October, at the Nautical Design Awards in Milan.
- "Best of the Best" 2011 in Hainan by the magazine Robb Report.
- "Motor Yacht of the Year" in January, at the official ceremony of the 'Motor Boat of the Year Award', in the category of yachts up to 55 feet in length.

In 2013, PRESTIGE has chosen Shanghai International Boat Show, the biggest boat show in China, for the Asian premiere of the sport top version of the Prestige 500. The new Prestige 500S is perfectly aligned with the prestige philosophy: clean design; good sea-keeping qualities; simple, elegant style; spacious living areas. In addition, the innovative layout of the Prestige 500S features a new design concept: that of an "owner's suite" on a model under 50 feet in length. Already unique in its market, the Prestige 500S offers all the comfort of a much larger motor yacht. The Prestige 500S is a large "coupé", characterized by a very comfortable interior saloon (with a large, opening roof and sliding panel aft), which gives onto a cockpit "lounge" on the same level (with tender garage).

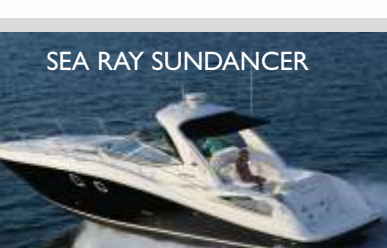

THE SPACIOUS AND CONTEMPORARY MOTOR YACHT BY FOUNTAINE PAJOT

The Cumberland 47 Long Cruise is the new Fountaine Pajot Motor Yacht. The motor yacht's wide beam is associated with a new interior design that offers a very comfortable lounge and a large, high-tech galley. The cabins in the hulls benefit from a large hull port light, providing light and a view of the exterior. Its elongated hull and its larger tanks gives it a greater range and particularly good soundproofing. Innovating the latest energy efficient technology, the CUMBERLAND 47 LC also uses renewable energy to become self-sufficient when at mooring. 'Back Contact' solar panels located on top of the bimini supply power to the LED lighting on board as well as the extremely well-insulated refrigerators. Attractive, seaworthy and designed for life at sea, the CUMBERLAND 47 LC will carry you safely over the seas.

THE 2013 NEW EDITION OF PERSHING 108: SIMPLY STUNNING!

Customizable layout, innovative technology and exclusive design are the three "engines" that drive luxury yacht Pershing 108', a prestigious 32.90 meter maxi vessel ready to show off its style. Exclusive versatility, elegance and performance are the strengths of this boat which takes environmental impact into consideration: in fact, the engine is for the first time divided into three, with the objective of ensuring a high level of performance without neglecting the reduction in fuel consumption. Thanks to its three surface propellers Pershing 108' yacht reaches a top speed of more than 42 knots with great silence, which makes it possible to have a unique and rare atmosphere onboard. However, it is customization that Pershing 108' yacht excels in: every little detail of this boat has been designed to meet the clients' needs, making them the real "architects" of their own yacht, thanks to the innovative layout that offers more and more varied spaces that can be adapted to the various on board situations. From this perspective, the number 1 model of Pershing 108' has a completely customizable below deck layout, including a spacious VIP cabin at the bow, a guest cabin, a TV or family room and a full beam master cabin amidships. It is worth mentioning the interior design that bears the best Made in Italy brands: in fact, the elegance of the interiors is taken care of down to the least detail thanks to exceptional long-standing brands such as Poltrona Frau and Ernestomeda, besides the prestigious stylistic innovations chosen by the Owner of the first hull of Pershing 108', that has chosen Fendi Casa - Club House Italia and Armani Casa solutions.

CRN LAUNCHES 60 METER SUPERYACHT: A NEW WONDER!

CRN celebrated the completion of the seventh pleasure ship of 60 metres produced since 2005. Lamberto Tacoli, Chairman of CRN S.p.A. and Chief Sales & Marketing Officer of the Ferretti Group, spoke about the future plans of the shipyard: "CRN intends to continue its policy of maximum attention to detail, productivity, flexibility and customer care. I would like to thank all the workers once again and our team who have enabled us to realise this new target. Now we are looking to the future: the shipyard is in full production. We have another six ships under construction and the next deliveries should take place within the next few months". At the moment the CRN is constructing eight super yachts with the CRN brand: five steel and aluminium ships (CRN 129 80 meters, CRN 125 58 meters, CRN 130 60 meters, 133 60 metres and CRN 128 60 metres at the quay to be delivered in spring) and three composite mega yachts (two 43 meter displacement Navette and a 40 meter semi-43-meter CRN 128'). The new vessel can accommodate 12 guests in 5 guest cabins, the master cabin and 14 crew members. The yacht is equipped with two Caterpillar 3512B-C engines that allow a cruising speed of 14 knots and a maximum speed of 15 knots.
