SR 190 SPX OB

The mission for precision

Sea Ray's precise engineering and design ensure each model drives straight and true. Think about a car tire that is out of alignment—even by much less than an inch—and how that causes a driver to constantly correct. This same concept applies to a boat engine not properly aligned with the transom and hull. An incorrect placement—by even just a tenth of an inch—causes major disturbances in the smoothness and straightness of the ride. Sea Ray uses cutting-edge robotic equipment that measures engine placement to within four-thousandths of an inch, a level of precision that other boat companies cannot achieve or afford, Resulting in an incomparably safe and stable ride.

Strong silent type

You won't be able to see the watertight compounds that bind the hull and stringer to reduce flex. Nor will you be able to see the precision framing system used in production to ensure the SPX mold's proper alignment. You can't see the detailed construction process that ensures strength

and durability on every Sea Ray. But after hundreds of hours on the water, you'll feel every benefit as the 19 SPX Outboard continues to prove its mettle.

SR 190 SPX OB

The ride, amplified

The design of a boat's hull plays a crucial role in ride quality, performance and efficiency. A poorly designed hull creates extra work for the engine and unwanted jostling for passengers. Sea Ray's team of full-time naval architects ensures that every model is engineered, built and validated as a beautiful performer. Every component of a Sea Ray's build, from the boat's weight and balance to its sculpted strakes, is designed for optimal tracking, handling and shock absorption—so that no Power goes to waste and not a Single second of enjoyment is lost.

Exterior Package

Every Sea Ray SPX is a fusion of expertly crafted details that blend to create a look as sharp as its performance. Molded hullside accents and two optional graphics packages—Sport and Speed—give the 19 SPX Outboard an aggressive attitude that matches the boat's athletic performance. Choose from a vibrant array of fade-resistant gelcoat colors, from two-tone to full-hull options, to reflect your style. And because the color finishes are weather-tested over four years, you can be confident they won't suffer from fading or crazing and your hull will look as good as the day you bought your SPX right up until the day you sell it.

Interior Package

Your perfect fit

For families with specific activities in mind, the SPX series caters to your needs with the option of three comprehensive packages: The Comfort Package includes a flip-up bolster helm seat and snap-in carpet in the cockpit. The AllSport Package adds built-in fishing capabilities including a trolling motor, livewell and casting chairs. And the Elevation Package serves up watersports thrills. Choosing your own adventure is as easy as choosing one of the above.

Sacrifice nothing

On the 19 SPX Outboard, an integral, full-beam swim platform with a stainless steel, four-step ladder illustrates just what Sea Ray believes “standard” should mean. A full, sterndrive-style platform, combined with the benefits of an outboard engine, results in the fantastic usability and flexibility that you’ll love about the 19 SPX Outboard. Stretch out while fishing from the portside jump seat, dip your feet in (when at rest), or simply enjoy the extra intimacy with the water that brought you onboard in the first place.

Fishing Features

Fishing well

SPX models offer owners incredibly easy and comprehensive options packages to make the boat perfect for them. The All Sport Package is perfect to turn any SPX to the perfect fish and ski model, with a strong 24V trolling motor, a live well to keep bait or trophies lively, easy rod storage and two casting chairs in the bow and cockpit for long comfortable days of fishing.

PERFORMANCE

Power

Whether your fun is to be found in saltwater or the lake, maneuver like a pro on the 19 SPX Outboard with the might of Mercury power at your fingertips. The 19 SPX Outboard comes outfitted with a standard Mercury 115 HP PRO XS. And with the 19 SPX Outboard's sporty, molded-hull design, big power and the most trusted sport boat hull design on the market blend to put control squarely in your hands.

PERFORMANCE

Endless possibilities

The 19 SPX Outboard packs in high-capacity opportunities like no other day boat its size. Plush furniture comfortably seats 11, extending from the expansive aft sunpad to molded cockpit seating to roomy bow loungers. Exceptional design on the 19 SPX Outboard results in a spacious layout for more gear, more friends and more fun. When was the last time you felt the possibilities were endless?

The varsity athlete

Agility and easy handling; a graceful build and complete ease at the wheel; action-promising power—the 19 SPX Outboard combines these ingredients to create an unforgettable thrill ride for watersports lovers. Add a standard ski tow eye or the optional water sports tower with integrated bimini top for protection from the elements, and you're prepared for anything—and everything.

PERFORMANCE

Standard Propulsion

115 HP PRO XS

Power-matched

The decision to offer only one engine on the 19 SPX Outboard might seem limiting at first, but the 19 SPX Outboard's standard power will outperform your expectations. Sea Ray's naval architects have designed the boat's hull and power specification to work together seamlessly, offering maximum performance and maximum efficiency. Take on big saltwater with incredible maneuverability and enjoy the longer use thanks to fuel-efficient and flexible outboard power.
